Peter:

## Nonresponsive based on revised scope

Joan edited the talking point as follows...

### Citizen Complaint Response in DE

- In response to multiple complaints from a Sussex County, DE resident, Ex. 6 Personal Privacy (PP), EPA Region 3 is conducting inspections in Millsboro, Delaware.
- EPA has coordinated with the Delaware Department of Natural Resources and Environmental Control (DNREC) to investigate the complaints both Agencies have received from Mr. Ex. 6 Personal Privacy (PP) regarding the spray irrigation and disposal of liquid wastes in the Millboro area.
- EPA and DNREC had to postpone the scheduled December 21 inspection due to Ex. 6 Personal Privacy (PP), however the inspection will be rescheduled for some time in January. ~~On December 21, 2021~~ EPA will accompany DNREC on an announced stormwater inspection they are leading on the Inland Bays Waste Water Treatment Plant for stormwater and spray irrigation concerns. EPA will lead a stormwater assessment of RB Hauling's Lawson Road property in Millsboro, Delaware that same day. DNREC will be participating in the Lawson Road property inspection as well.

Thanks for letting me know,  
Beth
